SHERRI & JEFF

Sherri and Jeff are looking for the fast track to the slow life with retirement on the horizon but they can't agree on the right time to make the move. Sherri loves her home and hopes an interior overhaul will keep them firmly parked there for another 5 to 10 years. Jeff sees things differently. He wants to sell while the market is red hot, move out of the bustle of the city and put some money in his pocket and some time on his hands to restore his classic car. Jillian hopes her cozy re-designs for Sherri will be enough to put the brakes on Jeff's plan to get on with retirement. Todd's search for the right space in the right place isn't as easy as it seems and Sherri and Jeff wonder if their dream house even exists.
